Date	15th October 2018
Agenda Item	13

Burglar Alarm at Courtaulds

HTC has 3 containers at Courtaulds sportsground. The groundsmen are concerned that the largest one, which contains a lot of the expensive equipment used for maintaining the town and Courtaulds, is vulnerable to theft. Over the summer, the Air cadets lost tyres to their minibus overnight and a group of travellers attempted to take up residence. A quote has been obtained from the alarm company we use at Queens Hall.

Costs excluding VAT

Installation of the alarm on the main container	£900
Linking of the alarm to the two smaller containers (if necessary)	£500
Electrical work	£200
Total expenditure from capital reserves	£1600

Monitoring and servicing costs for this alarm would be £260 p.a and would need to be included in the revenue budget for Courtaulds.

Recommendation: that HTC notes this report and considers this item at the budget seminar in December 2018
